Hogs Handle: Killeen

Match Report

Round three saw the Hogs taking on a much improved Woden Blues. With Harman sitting on two losses this was a game the Hogs needed to win.

The opening quarter was an even contest with neither side being able to gain a substantial break, with Harman taking a five point lead into the first break. The second and third terms were all Woden as the Hogs found out that there is no reward for playing lazy, selfish, undisciplined football.

Facing a 19 point deficit at the last break, the players were told to play accountable, man on man footy and pressure the Blues at every contest. The Hogs responded by playing there best footy of the year and managed to close the gap to 4 points, but it was to little to late as Harman fell to there third straight loss. Though the loss was disappointing, the last quarter showed that this particular side has the ability to give the competition a real shake.

Some performances of note were Karney, who kicked some vital goals and gave a good contest all day, Killer, who had plenty of it and Spear, who filled holes and gave a full four quarter effort..
